Memorandum to the IAC

Subject: Annual Report to the NSC

Reference: IAC-D-55/13.3, 25 August (TS 141823-a)

1. Attached is a sheet containing certain proposed changes in the draft of the Annual Report to the NSC as approved by the IAC representatives and circulated as IAC-55/13.3 (Second Draft), 25 August. These changes are generally in the nature of errata or are suggested for purposes of clarification. The only entirely new material is that on page 6, which is included to refer more specifically to the role of the Department of Defense in developing the new critical intelligence communications system. At present we do not propose to discuss these changes specifically at the IAC meeting. Unless a member raises a question about any of the suggested modifications we will assume that they are to be included in the final report as submitted to the NSC.

2. The Annual Report will be placed on the agenda of the IAC meeting now scheduled for Tuesday, 2 September at 1430.
